

## Renewable Heat NY Overview

**Governor Andrew M. Cuomo's Renewable Heat NY (RHNY) initiative provides incentives toward the installed costs of high-efficiency, low-emission wood heating systems. The following incentives are available.**

### Why Heat with High-Efficiency, Low-Emission Wood Systems?

- New high-efficiency systems are automated and cleaner burning.
- More efficient combustion means less fuel is required.
- Incentives help offset the cost of replacing or supplementing existing systems and installing new systems.

Customer Type	System Type/Technology	Incentive Amount
Residential	Wood Pellet Stove	\$1,000 (up to \$1,500 for income qualified homeowners)
	Advanced Cordwood Boiler with Thermal Storage	\$4,000 for the recycling of old outdoor/indoor wood boiler and an additional 20% of installed cost up to \$4,000
Commercial Small	Advanced Cordwood Boiler with Thermal Storage	\$4,000 for the recycling of old outdoor/indoor wood boiler and an additional 20% of installed cost up to \$4,000
	Small Pellet Boiler with Thermal Storage Less than 300 MBtu/h (88 kW)	25% of total installed cost up to \$20,000 based on size
Commercial Large	Large Pellet Boiler with Thermal Storage More than 300 MBtu/h (88 kW)	20% of total installed cost (\$100,000 maximum incentive)
	Tandem Pellet Boiler with Thermal Storage More than 300 MBtu/h (88 kW)	25% of total installed cost (\$150,000 maximum incentive)

*Incentives for residential pellet boilers will be announced in 2015.*

The Renewable Heat NY initiative helps New York State residents, businesses, and municipalities use local wood for heat in a cleaner way, made possible by recent improvements in wood heat technology. Support is available for the installation of high-efficiency, low-emission wood heating systems. Through education, customer incentives and infrastructure development, New York State is helping the industry reach scale.

NYSERDA, a public benefit corporation, offers objective information and analysis, innovative programs, technical expertise, and funding to help New Yorkers increase energy efficiency, save money, use renewable energy, and reduce reliance on fossil fuels. NYSERDA professionals work to protect the environment and create clean-energy jobs. NYSERDA has been developing partnerships to advance innovative energy solutions in New York State since 1975. To learn more about NYSERDA's programs and funding opportunities, visit [nyserderda.ny.gov](http://nyserderda.ny.gov) or follow us on Twitter, Facebook, YouTube, or Instagram.
